

Call for the XVIII International Convention and Fair Informática 2022

Dear colleagues:

The Ministry of Communications and the IT Union of Cuba invite you to the 18th edition of the International Convention and Fair *Informática 2022*, which will take place from March 21 to 25, 2022, at the Havana Convention Center and on virtual platforms.

On this occasion, the motto that will represent the event will be *"Together for Digital Transformation"*. This motto endorses the idea of the innovating application of digital capacities and technological solutions to processes and products by governmental entities, universities, the IT industry, the private sector and the citizens, focusing on economic development and the satisfaction of the needs of society.

The support and promotion of the implementation of the "Comprehensive Policy for the Improvement of the Computerization of Society in Cuba," are regarded as the goals and themes of this edition, along with scientific and innovating solutions and proposals that could have an impact on the Social and Economic Development Plan until 2030, which is aligned with the Sustainable Development Goals.

We invite you to participate in the scientific and technological discussion and in the presentation of projects and initiatives related to the main topics of each one of the events that are part of the Convention and the Fair.

Informática 2022 will be a space for the exchange of ideas among professionals, scientists, technicians, businesspeople, governmental representatives, international organizations and the public in general, who might be interested in researching, promoting, analyzing and learning about the progress made in terms of Information and Communications Technologies (ICT), telecommunication, electronics, robotics and automatics in Cuba and around the globe.

OFICINA PERMANENTE - PERMANENT OFFICE:

Ministerio de Comunicaciones. Ave. Independencia No. 2 e/ 19 de Mayo y Aranguren. Plaza de la Revolución. Cuba.
